About Me.

Hello, my name is Dharti shah

As a UI/UX Designer

I am a passionate UI/UX Designer with knowledge of front-end development. I have skills in Figma, HTML, CSS, JavaScript, Bootstrap, and WordPress. I enjoy creating clean, responsive, and user-friendly website designs that provide a better user experience. I am always eager to learn new technologies and improve my design and development skills. My goal is to build modern and creative web interfaces that are both visually appealing and functional.

My Skills

I have skills in UI/UX design and front-end web development. I use Figma to create wireframes, prototypes, and modern user interface designs. I have knowledge of HTML, CSS, and JavaScript, which helps me build responsive and user-friendly websites. I also work with Bootstrap to create mobile-friendly layouts and faster website development. Additionally, I have basic knowledge of jQuery and WordPress for improving website functionality. I always focus on clean design, good user experience, and responsive layouts that work well on different devices. I am continuously learning new technologies and improving my skills to create better and more effective web designs.

50% UX RESEARCH

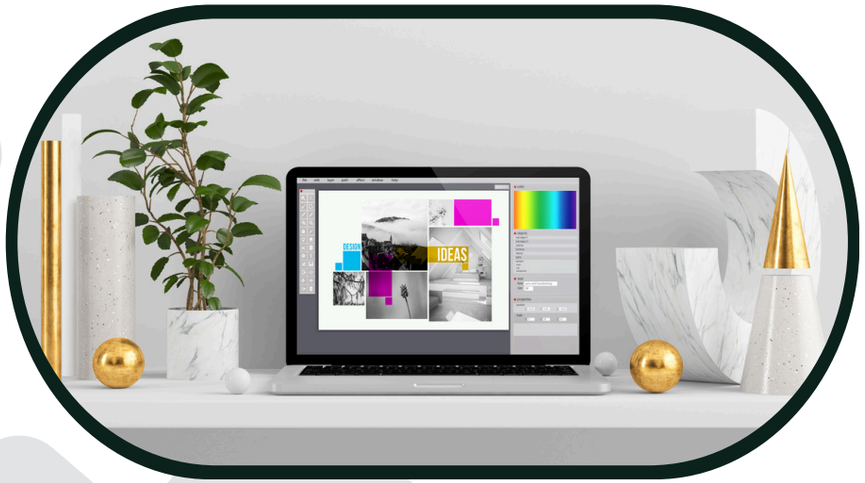
55% TYPOGRAPHY

70% WIREFRAMING

My Project



01 RESPONSIVE PORTFOLIO WEBSITE

This project is a personal portfolio website designed to showcase my skills, projects, and design work. I created the layout using HTML, CSS, and Bootstrap to make the website fully responsive and user-friendly. The design focuses on clean structure, smooth navigation, and a modern UI that works well on desktop and mobile devices.

02 UI/UX WEBSITE DESIGN IN FIGMA

In this project, I designed a complete website interface using Figma. The process included creating wireframes, designing UI layouts, and building interactive prototypes. The goal of this project was to create a visually appealing and user-friendly design that provides a smooth and intuitive user experience.
